Sterile Lubricant - Pack of 10

A good intimate lubricant is essential when using any sex toy. This sterile lubricant is laboratory treated to be completely clean for the safest intimate use.

Simply apply the lubricant to your body and your electro sex toy before play to help reduce friction, increase pleasure and provide optimal cleanliness. This sterile lubricant is essential for our urethral sounds and is ideal for use with all other ElectraStim internal electrodes.

Water-based formula - Safe for use with latex (including condoms) and silicone.

Foil Pack Size: 5g

Main Ingredients: Sodium polyacrylate, Glycerol, preservatives, Purified Water

Contents: 10 single-use lubricant sachets

*Please note that the lubricant brand inside may vary but the sterile qualities are the same.
