ElectraStim Cable - Pack of 1

A spare or replacement connecting cable for your ElectraStim stimulator.

Features a 3.8MM safety connector that plugs straight into your ElectraStim stimulator and 2 x 2mm connecting pins that plug into any ElectraStim electrode.

A single cable is required for each channel on your stimulator. If you have a dual-channel or multi-channel stimulator, you may wish to buy additional cables.

Cable Length: 1.1 metres / 3' 7"

Accessory Connector: 2mm

Stimulator Connector: Safety Type

Materials: Nylon, PVC, Copper, Cord
