elite silicone™

The Anal Fantasy® Elite Collection Hyper-Pulse P-Spot Massager is uniquely designed to conveniently reach and stimulate your backdoor pleasure zones! Enjoy the most explosive ejaculations ever with the Hyper-Pulse P-Spot Massager! With its special curvature, you can easily position the exclusive "Hyper-Pulse" and turn up the vibration right where you want it most! Made from our silky-smooth Elite Silicone™, this ergonomic wand stimulates those hard to reach areas while allowing you to enjoy full control of all the stimulation modes!

Our exclusive "Hyper-Pulse" design concentrates intense stimulation at the face of the tip and directly on the P-Spot. A powerful motor drives the soft, silicone diaphragm to create the most intense massage your ass will ever experience! Turn up the intensity with the additional vibrator and get ready to explode in ecstasy!

The key to anal play is to take it slow! Attempting anal penetration before you are properly aroused can be unpleasant, so allow yourself to relax in order to enjoy the experience. Finger play is a great way to relax the anus. The anus and rectum do not have a natural lubricating system, so use plenty of Moist® Lubricant to reduce friction and increase pleasure.

With the Hyper-Pulse P-Spot Massager, you'll never have to worry about batteries again! Just use the included USB cord to charge your Hyper-Pulse P-Spot Massager and it will be ready when you are!

**Power on** - Press and hold for 3 seconds to enter standby mode. Power LED will stay lit.

**Dynamic Vibration** - Press the vibration button to start vibration. Press again to cycle through the 3+7 modes of vibration. Press and hold for 3 seconds to turn off.

**Hyper-Pulse Massage** - Press and hold the O button to begin Hyper-Pulse Massage. Press again to cycle through the 3+7 modes of pulsation. Press and hold for 3 seconds to turn off.

**Dynamic Vibration & Hyper-Pulse Massage** - Engage both functions simultaneously for multiple combinations!

**Power Off** - Press and hold for 3 seconds to power off. Power LED will turn off. When the unit has been powered off, all modes will be powered off.
