**How to Play**

Your Domin8 Scenario cards are split into eight categories with a symbol for each. Lay the cards face down grouped by the different symbols.

Hold each others eye contact - the person who controls their partner's gaze for the longest can take the first turn to roll the Domin8 die.

The Domin8 die decides which category you must take your card from depending on the symbol shown. Randomly select a scenario from the chosen category and begin to fulfil that fantasy!

### **Domin8 Me & Domin8 You Cards**

After reading the card, the player can choose whether they want to play the Dominant or Submissive role by displaying the Domin8 Me or Domin8 You card.

### **Domin8 Icons:**

**Handcuffs:** Criminals and disciplinarians play lead roles in dark underworlds.

**Stethoscope:** Medical scenes filled with sexual exploration and wellbeing.

**Whip:** Will whips punish, tease or reward?

**Blindfold:** Exploring the tantalizing world of sensory deprivation.

**Shirt and Tie:** Formal uniforms and clothing help to take control.

**Feather:** Feathers are used to tempt, torture and tease.

**Bound Wrists:** Restraint play is enjoyed, but who will be bound and tethered?

**Lips:** Secret scenarios, who knows what you will be playing here.

**PLAY SAFE:** Playing control games between two consenting adults is an exciting way of keeping a relationship fresh and fun.

Sharing these adventures with the person you love and trust leads to greater intimacy. It is always good though to agree a few simple rules before you play:

**1)** If either partner feels uncomfortable with the suggested scenario then they must say so and the other partner must accept their preference.

**2)** As many control games involve the pretence of not wanting something to happen eg. Please don't / please stop... it is important to agree code words that cannot be misinterpreted in the heat of the moment. Two words successfully used by the S and M community are:

**Red:** Stop immediately – I do not want this to continue.

**Yellow:** Something isn't right and needs sorting before continuing.
