

**PheroStrong By Night for Women Massage Oil**

**Precautions**

We recommend our consumers to conduct a skin patch test before using a product for the first time: Apply a small amount of oil on your forearm or wrist. After 5 minutes, check the area for signs of irritation. If the skin is itchy or inflamed, rinse immediately with plenty of water. Do not apply to mucous membranes and any other open sores, eyes or wounds. Do not eat. For external use only.
