

Venus Smooth Blades

Directions

How often should you shave with a Venus Smooth women's razor blade?

How often you need to shave with a Venus Smooth razor blade comes down to your lifestyle and rate of hair growth. This differs from woman to woman. What is important to know is that shaving regularly will not make your hair grow back thicker whether you use a Venus Smooth blade head or not. Most women will find that shaving twice a week is adequate. Given that these razor blades will last about a month based on a bi-weekly shave, a Venus Smooth Blades 8 Pack will last up to eight months and even longer, in some cases.

Are Venus Smooth refills suitable for bikini area hair removal?

Venus Smooth blades are suitable for shaving legs, armpits, arms and other parts of the body, including pubic hair. As a bikini shaver, the Venus Smooth should be used after you have exfoliated the area by using a gentle scrub, a loofah or exfoliation gloves so that dead skin is removed, thereby lessening the chances of ingrown hairs developing.

Ingredients:

PEG-115M, PEG-7M, PEG-100, METHYL DI-T-BUTYL HYDROXYHYDROCINNAMATE, SILICA, CITRIC ACID, PERSEA GRATISSIMA (AVOCADO) OIL, VITIS VINIFERA (GRAPE) SEED OIL, BHT
