

Product Safety

- All products are made with body-safe, high-quality materials (e.g., silicone, metal, and latex-free options).
- Products are nickel-free and phthalate-free to minimise allergic reactions.
- Always read product packaging for specific usage guidelines and warnings.

Sei Mio Bondage Safety Instructions and Guidelines

- Ensure the safety of both you and your partner is a priority before beginning play.
- Establish clear communication during play and agree on a safe word or gesture to stop if necessary.
- Stop play immediately if a safe word or gesture is used.
- Familiarise yourself with the proper use of all bondage accessories and toys beforehand.
- Keep products out of reach of children as small parts may pose a choking hazard.
- Avoid using products on broken or irritated skin.
- Do not share products to prevent the risk of infections or illnesses.
- Read product packaging carefully to identify potential allergens (e.g., latex) and prevent allergic reactions.
- Discontinue use immediately if irritation, discomfort, or other adverse reactions occur.
- Always prioritise safe use of products to prevent injuries. Use them at your own risk.
- No liability will be assumed for injuries or accidents caused by improper handling or failure to follow safety guidelines.

Sensation Play-Specific:

- The head, face, joints, and any other delicate or vulnerable areas should never be targeted during impact play.
- Areas such as the back, buttocks, thighs, or upper arms where there is more padding pose less risk of injury during impact play.
- To heighten sensation during impact play, stimulate the skin first with fingers or by using a soft material such as a feather tickler.
- No matter which type of tool you are using, begin with gentle impacts and gradually increase the force being used.
- For nipple clamps or clitoral clamps, the recommended wear time is 10–15 minutes. Remove clamps immediately if discomfort, irritation, bruising or discolouration occurs.

Clamps

- Position the clamps on aroused and erect nipples and clitoris, and use the adjustable screws to achieve a firm but comfortable squeeze.

Collar

- Secure the collar around your partner's neck via the velcro fastening, ensuring that they're comfortable and blood flow is not restricted.

Hygiene & Maintenance

- Clean products thoroughly before first use and after each session.
 - *Metal*: Wash with mild soap and water, then dry completely.
 - *Silicone/Rubber*: Use warm water and soap, air dry or pat dry.
- Store items separately in a cool, dry area to avoid damage.

Disposal

- Dispose of packaging and unused products responsibly by recycling wherever possible.

Disclaimer

- Products are used at the user's own risk. Proper handling and adherence to safety instructions are required to avoid injuries or accidents.

For additional product-specific instructions, refer to the packaging or user guide included with each item.
