

Safety Information:

- Avoid applying restraints too tightly, as this may restrict circulation.
- Do not place restraints on joints or sensitive areas that could be easily injured. Avoid use on broken or sensitive skin.
- Ensure restraints can be quickly and easily removed if needed.
- Never leave a restrained person unattended.
- Remove restraints immediately if any concerns arise.
- Prioritise safety for yourself and your partner before starting any activity. Agree on a clear stop signal or safe word and maintain open communication throughout. Cease activity immediately if a safe word or signal is used.
- Read all instructions before use.
- For adult use only. Keep out of reach of children
- Check for materials that may cause allergic reactions.
