

# FLIP *Shape*

## JUST ROLL WITH IT

Opening and setting up your Shape is as easy as 1, 2, 3.

**STEP 1:**  
**DO NOT CUT OPEN!**  
Find the end of the plastic and pull to unroll. The foam can take 24 hours to expand fully, but a cover can be applied after 20 minutes.

**STEP 2:**  
Insert the foam into the cover so the zippers line up and zip closed.

**STEP 3:**  
If the cover does not fit tight, the insert might be backward or upside down. Remove the insert, flip it around, and reinsert.
