

Sensual Warmer & Dispenser for personal lubricants and massage oils

EN

Introduction

This innovative device functions as both a warmer and a dispenser for personal lubricants and massage oils. Simply fill it with your preferred product, and it will quickly heat it to a comfortable temperature. The temperature is precisely adjustable between 36°C-46°C (97°F-115°F), allowing you to tailor the warmth to your personal preference for a natural and pleasant sensation every time. Equipped with an electric dispensing system, it lets you dispense your product smoothly with a single press—no more manual squeezing, just effortless convenience.

Note: Use heat-safe liquids. OTOUCH's smart thermo-lubricant is recommended.

Packing List

Important Notes:

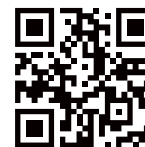

1. Before use, fill the device with a heat-compatible lubricant. The temperature can be precisely adjusted between 36°C-46°C (97°F-115°F) to suit your preference.
2. Use only heat-compatible lubricants or massage oils.
3. During use, ensure the liquid level inside the bottle is not less than 1/2. Refill in time to prevent dry heating.
4. It is recommended to use the same lubricant or oil consistently for long-term storage without the need for frequent cleaning.
5. Do not use other charging cables with the product.
6. The device should not be operated while charging. Please avoid turning it on during the charging process.
7. Store the product in a clean and dry place, away from direct sunlight and out of reach of children.

Refilling Lubricant

Note: When adding lubricating oil, do not fill to full capacity. Only fill up to 80% of the container's volume.
