

FLESHLIGHT VIBRATION TECHNOLOGY

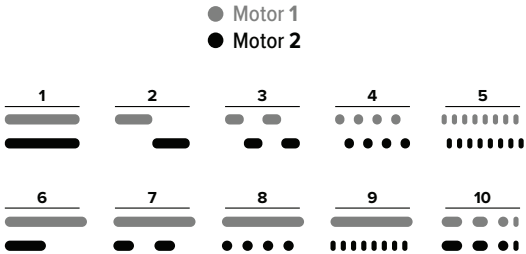

DO NOT GET WET OR USE THIS PRODUCT NEAR WATER. QUIVER IS NOT WATERPROOF.

- POWER BUTTON**  
Long press = buttons light up white - Quiver is powered ON (in standby mode)  
Short press = warming turns ON - LED turns red  
Short press again = warming turns OFF - LED returns to white  
Long press while running = vibration and warming turn OFF and LEDs turn OFF - Quiver is powered OFF
- “F” FUNCTION BUTTON**  
Short press = turns ON vibration pattern function 1 (10 different functions in the loop)  
Short press = changes vibration to next pattern function  
Long press = vibration function turns OFF
- ARROW UP BUTTON**  
Short press = increases intensity (6 levels)  
Long press = goes to max speed (level 6)
- ARROW DOWN BUTTON**  
Short press = decreases intensity (6 levels)  
Long press = goes to lowest speed (level 1)  
Long press at lowest speed = vibrations turns OFF

**CHARGING**  
Power button LED blinks white while charging  
Stops blinking when fully charged

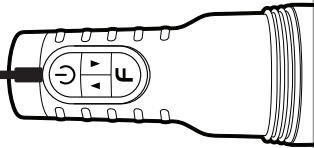

**VIBRATION PATTERN MODES**  
The two integrated bullet vibrators run at the same time, but can be operated in alternating pre-programmed patterns as illustrated below:

Once Quiver is powered on, activate Fleshtemp™ by short-pressing the power button. You will know the warming function has been activated by the button’s RED illumination. (Quiver must have a full charge)

The warming feature may take up to 15 minutes to reach max temp because of the insulating nature of the Real Feel Super Skin sleeve. **TIP:** To help speed up warming time, run vibration function at max speed.

**WARNING: NEVER OPERATE THE WARMING FEATURE WHEN THE BULLETS ARE NOT INSERTED INTO THE SLEEVE. The bullets can get very warm and may cause harm.**

**CHARGING**  
Quiver comes with a USB-C style cable to use for charging your device. You can plug this into any standard USB-C wall charger (not included). The first time you charge your device, it is recommended to set aside at least 6-9 hours to let it fully charge. You will know your device is fully charged once the flashing white LED turns solid.

**PROPER USE**  
We recommend that you use Fleshlube® or any other kind of water-based lubricant with Quiver.

**DO NOT USE:**

- Silicone lubricant as it could deteriorate the sleeve material
- Massage oil or hand cream as lubricants

**CLEANING**  
Quiver has a unique Real Feel Super Skin sleeve designed to help keep moisture away from Quiver’s electronic components. The included sleeve is sealed on one end to keep any liquids from escaping.

**To Clean:** Always clean your Fleshlight sleeve thoroughly after each use. **REMOVE THE SLEEVE** by pulling it out of the case and removing the two vibrating bullets (tethered) from their pockets. Once removed, set the case aside (away from water) and run warm water and antibacterial soap through the sleeve until you are confident that any personal liquids have been emptied. For a more through cleaning, we highly recommend using an antibacterial toy cleaner such as Fleshwash.

**The outer case can be wiped down with a lightly damp cloth or antibacterial wipes, but never submerge it under water.**

**To Dry** your internal sleeve after use, it will need to hang vertically so that water will drip dry out of the orifice using gravity. Dry the outside of the sleeve thoroughly before returning it to the case. You can now slide the vibrating bullets back into any of the available pockets molded into the design of the sleeve. Be careful not to tangle up the coiled cables as it will make it difficult to slide the sleeve back into its case. Once you’ve maneuvered the sleeve back into its case, you can now leave it to dry with the cap open. To expedite drying time, we recommend using the Fleshlight Air, which uses a fan to circulate air into your sleeve while still in the case for a more thorough drying.

**Do not attempt to unscrew the smaller endcap to help with airflow, it is NOT REMOVEABLE and will break your device. This is the sealed area for the working internals of Quiver.**

Disclaimer and Warnings

- Fleshlight makes no medical claims with our devices.
- This device is not for use by persons under the age of 18.
- This device is not intended for use by anyone who is unable or unwilling to consent.
- This device is not intended for persons with reduced physical, sensory or mental capabilities, or a lack of experience and knowledge, unless they have supervision or instruction concerning use of the device by a person responsible for their safety,
- Fleshlight will not be held responsible for any undesirable results of misuse.
- Follow all directions as set forth by the manual and do not attempt to make any technical adjustments to your Quiver™ at home.
- Do not use the Quiver™ if there are exposed electronic elements.
- Do not use the Quiver™ if you are in a shower, bathtub, swimming pool, sauna steam room etc. \*\*The Quiver is NOT waterproof.
- Do not use the Quiver™ if it is excessively hot to touch.
- Do not use the Quiver™ and Fleshlight device on inflamed or irritated areas.
- Avoid leaving your Quiver™ in direct sunlight and NEVER expose it to extreme heat.
- Never use cleansers containing alcohol, petrol or acetone.
- Do not use heating appliances to dry the sleeve or device.
- Avoid using harsh soaps as they can damage the sleeve material.
- Always store the device out of reach of children.

Quiver is intended to be used with original Fleshlight products only. The usage of any third party hardware product in combination with the Fleshlight Quiver™ violates the terms of usage and warranty, and Fleshlight will not be liable for any damage sustained.

Disposal Specifications

While Quiver is made from eco-friendly materials, you should not dispose of Quiver in your trash can. Like any other electronic device with a rechargeable battery, there are disposal regulations. These regulations vary by local municipality, city and by country. Be aware of how electronics are disposed of where you live. Fleshlight suggests you ask your local council center.

Aftercare and Help

Specifications:  
Materials: PC ABS, PU Coating; non-porous, chroming, silicone.  
Finish: Matte, Chrome  
Size: 320 x 157 x 167 mm  
Weight: ± 1500 g  
Charging time: 6-9 hours  
User time: 2 hours

Help:  
If you have any further problems with setup or issues with using your device, please do not hesitate to contact our Customer Service team. Our team is there for your support and to explain solutions to your problems in detail. We try to make your online experience run as smoothly as possible. We aim to answer all questions within 48 hours of receiving them.
